

JENNA WESTENDORF

SOFTWARE ENGINEER

React | Typescript | Node.js | Express | SQL | MongoDB | Figma | CSS

Whether I worked in the field of education, social work, or nonprofits, my career has always focused on advancing the capacity for people and organizations to achieve positive impacts. I am a self-driven team builder and outdoor enthusiast with an extensive background in organizational behavior, promoting psychologically safety in team development processes, project management, software design and development, and a commitment to continuous learning.

EXPERIENCE

Software Project Manager | ShareWithOtter | 2023 – PRESENT

React | Typescript | Node.js | Express | Prisma | Postgres | Vitest | Cypress | Material UI

- Lead remote team to develop a full-stack application before deadline
- Formulate app idea and design using Figma
- Delineate all logic and data modeling required for the app
- Engineer entire server as well as 90% of client
- Facilitate team meetings and task management
- Mentor software development team in building assigned components and using new frameworks

Full-Stack Engineer | Sacramento Writers Club | 2023 – PRESENT

React | Node.js | Express | Postgres | Sequelize | Clerk | Vanilla CSS | Figma

- Work collaboratively with club president to develop a design that implemented all desired features for the club's needs
- Sole responsibility and accountability for building the client and server
- Manage tasks to ensure all features were ready by designated deadline

Course Director/Trainer/Lead Instructor | Outward Bound | 2015 – PRESENT

- Cultivate and implement vision of course goals
- Build productive and supportive team environments
- Oversee course structure and safety
- Facilitate team meetings and collaborative planning
- Provide feedback and mentorship opportunities for staff
- Maintain high-quality paperwork and communication with program team

Software Developer | CashDash | 2023 – 2024

Typescript | Cypress | Vitest | Jest | Chart.js

- Improve legacy codebase by integrating unit, integration, and E2E testing
- Convert code from JavaScript to Typescript and add new features
- Fix bugs and refactor code for optimization and enhanced readability

Community Partnership Director | Magnolia Project | 2010 – 2011

- Hold and facilitate big picture vision for program goals and direction
- Coordinate internships and service projects
- Collaborate with advisory board, community members, and program team
- Provide leadership and field support to participants
- Mentor team leaders and facilitate regular leadership meetings
